

Drupal Association Technology Supporter Program

What are the Supporter Programs?

Drupal Association Supporter Programs provide companies a way to give back to the Drupal project and enjoy great benefits in return.

There are three programs and each serves a different type of company. Member companies enjoy a deep connection with the Drupal community. Program fees pay for the Drupal.org Tech Team, which maintains, optimizes and improves Drupal.org.

What is the Technology Supporter Program?

Drupal Technology Supporters are companies who provide a product or service that helps the Drupal community build, publish, optimize and run amazing sites. This program enables members to educate the community about their tools, third party software integrations, and other services that help Drupalers lead in web development.

Who can join?

Technology companies of all categories can join the program as long as they:

- Support Drupal integrations with their product
- Pay the annual program fee

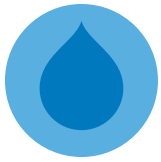

Regular or Premium?

With the Technology Supporter Program, companies can elect to be a regular Technology Supporter, or a Premium Technology Supporter. But what's the difference? We've outlined some of the key benefits that our Premium supporters enjoy on the next page.

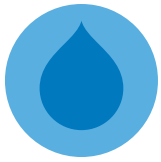

This is only a sample selection of benefits. For a current list, visit <https://association.drupal.org/technology-supporters>
